Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1) The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

The term PPS recited in the claims is not recited and defined in the Specification.

The term Hunter Gloss recited in the claims is not defined in the Specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2) Claims 13-16, 30-40, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 is not clear since it does not define PPS. Other claims suffer from the same deficiency.

Claim 13 is not clear since it does not define Hunter Gloss. It is not clear how Hunter Gloss compares with other measurements of gloss. Other claims suffer from the same deficiency.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3) Claims 13-16, 27-40, are rejected under 35 U.S.C. 103(a) as being unpatentable over Kayser (5,669,295). Kayser discloses a method of calendaring a fibrous web in a calender that includes a first a second stack of rolls, having a total of 10 rolls (first stack of 5 rolls, and the second stack of 5 rolls) in two stacks where the web travels between the nips formed by said rolls as shown in Figure 1. The product fibrous web is calendered to a desired gloss and it would have been obvious to one skilled in the art at the time the invention was made that the web is calendered to a desired gloss by increasing or decreasing the number of nips formed as required. Kayser discloses that the calender rolls are adjusted and number of working nips are adjusted (col. 3, lines 8-23, and cols. 3-5, Figure 1). This method adjusts the quality of formed product.
